DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 22-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The subject matter added to claim 22 could not be located in the specification as originally filed and is considered to be new matter. New claim 27 could not be located in the specification as originally filed and is considered to be new matter. The limitations in claim 29 in lines 2-5 (i.e. "semiconductor laser, optical detector, ...") could not be located in the specification as originally filed and is considered to be new matter. Claims 23-29 depend from claim 22 and contain all of the limitations of claim 22. Therefore, claims 23-29 are rejected for the same reasons as claim 22.

Response to Amendment

3. The 102(e)/103(a) rejection of claims 22-26 over US 5,600,483 to Fan et al. (Fan) presented in the office action mailed November 4, 2003 is withdrawn in light of the amendment. Fan, while disclosing a three-dimensional periodic structure with at least two kinds of materials having two-dimensionally periodically recessed or projecting portions, does not disclose at least one of the layers to be continuous relative to the x-y direction.

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
